

Whizz Education gives you the unique opportunity to have a fulfilling and financially rewarding career by becoming a **Whizz Education Advisor!**

Whizz Education Advisors are certified advisors that work in their local geographical area with schools and the parent community to raise education standards in maths with students at primary and early secondary school level, through the proper use of Whizz Education's services.

- You **DON'T** need to have a track record in sales to be successful
- You **DON'T** need to be a mathematician
- You **DON'T** need business premises as you can work from home

As long as you're comfortable talking to people and have a genuine interest in helping children do better in school, you may be suitable as a Whizz Education Advisor.

Background to Whizz Education

Whizz Education is the leading provider of maths education services for 5 to 13 year olds, within schools and homes. The Maths-Whizz product suite uses interactive animations and unique online tutoring methods to deliver proven measurable results in maths.

Where do you come in?

As a Whizz Education Advisor you develop relationships with local schools, market Maths-Whizz into those schools and then work with client schools, as well as parents, to implement best practice and gain greater results in maths for students.

Ideal Whizz Education Advisor Profile:

- Energetic with a strong desire to succeed and make a difference in your community.
- Enjoy meeting people and making a difference.
- Very 'social' and can build rapport with people.
- Well organised, able to manage your time effectively and prepared to keep records. You can't manage what you don't measure and at Whizz we have tremendous self management tools.
- Strong work ethic – you have to put a lot of effort in at the beginning to build your business. But also appreciate free time when it counts.
- Take responsibility for your results! We can provide the product and support but the level of success you achieve will be down to you.

If you're looking for something that is part-time, then this isn't for you! If you're looking for a business that you can build working flexible hours, that will get you involved with your local community, will give you plenty of time for family and other activities, while earning your way to a healthy recurring income, then Whizz could be for you.

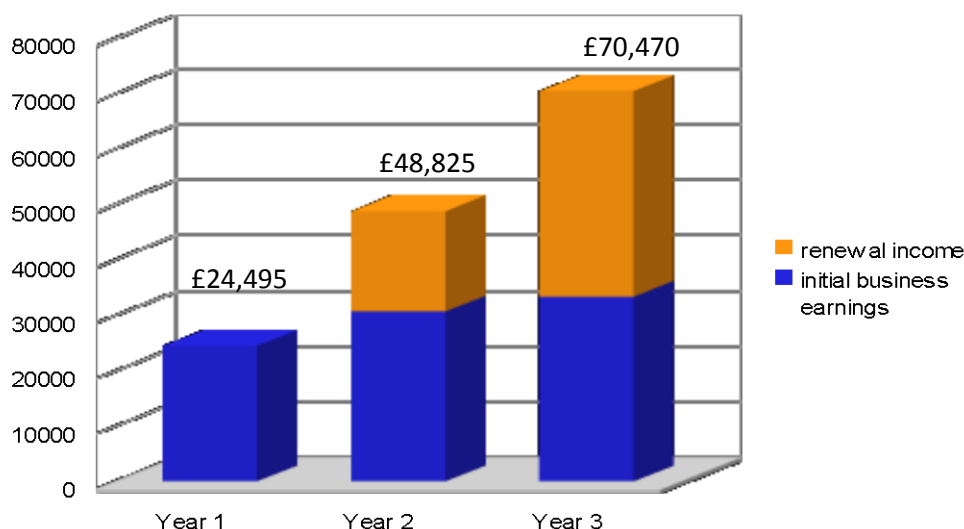

What will you get out of it?

The great thing is that, with this business, what you can earn is entirely up to you.

Your earnings will depend on a number of things, like your work ethic, the time you devote to the business, (how effectively you spend that time), the amount of marketing activity you undertake, the way in which you deploy the techniques we give you and of course, your existing skills, experience and contacts.

Your core income will be from the sales of Tutoring Plus for Schools, Teachers' Resource and Service agreements. You are free to pursue other income streams using Whizz products when authorised.

These projections below are based on someone with no previous marketing experience, no experience of working within education or running a business, and should be considered conservative:

One of the huge advantages with Maths-Whizz is that you are building recurring income; your customers will remain with you year after year. The results they get from Maths-Whizz will ensure that, for the vast majority, once they start, they won't want to stop. Recurring income is one of the most powerful aspects of this amazing opportunity; it's what truly sets Whizz apart from other businesses opportunities.

Training and Support

Whizz Education will provide you with a professional initial sales and advisor training course as well as regular Regional Meetings, 1:1 Business Planning sessions and full telephone support. You are not on your own! We'll show you what to do and how to do it. The Whizz trainers have a combined 40 years of experience of successfully turning people into independent distributors, with some amazing results. With the Maths-Whizz unique income producing activity tracker, you and Whizz will know at all times where you are being successful and the areas that need further training and attention.

Why should you become a Whizz Education Advisor?

1. Substantial business opportunity:

- 30,000 UK schools are under constant pressure to address and raise standards in maths
- Huge government funding available
- Recurring income

2. No stock to hold or deliver: Everything is delivered online.

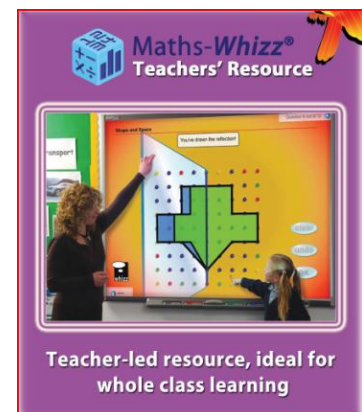

3. Respectability: This is a business that you can be proud of. Your schools, and more importantly their students, will be better off for you having introduced Maths-Whizz to them. You will be proud of your profitable business plus you'll be provided with prestige and respect within your community

4. Low investment and ongoing maintenance cost: Your monthly overheads are small. Plus the initial investment is a fraction of what many, much less attractive business opportunities cost.

5. You have the chance to contribute enormously to your local community:

- Provide the teachers of your local schools with innovative teaching methods that will make their lives a lot easier
- Allow every child in your community to learn maths at his/her own pace
- Enable the children to improve their maths skills significantly in a sustainable way
- Open up your community to the joy of learning maths with Whizz Education

If you're thinking seriously about getting involved in a business venture, then look at your wish list and see how many of those wishes being a Whizz Education Advisor can tick off.

Interested? Submit an application form <http://www.whizz.com/wea/form.html> and once we have established that your area is available, we will organise the vetting and profiling assessment. This does not commit or obligate you to anything. It just prevents your chosen area from being taken whilst you make your decision and we go through the application process with you to ensure that you are suitable.

How much does it cost?

Every business requires an initial investment and overheads, which are important, because that determines the bottom line profitability of your business.

The cost of your training is just £4,950 excluding VAT. This payment also includes a provision to cover Whizz's costs in your first year for support material and business tools like a business tracker, email hosting, and on-going development. At the end of your first year, and annually thereafter, Whizz will bill you £1,000 plus VAT at the beginning of the year to cover these costs going forward.

You will incur some other costs, for instance travel and telephone; however, all these costs are variable and linked to client growth and revenue. So overheads remain small, and profits are maximised.

What happens next?

Step 1. Submit an application form with a CV <http://www.whizz.com/wea/form.html>

Step 2. Interview.

Step 3. Suitability: ISA vetting.

Step 4. Profile report.

We look forward to hearing from you and discussing this further!
